

# MATH MATTERS

The mathematics honor society Pi Mu Epsilon, in cooperation with the math club PI, is again sponsoring the annual student talks event MATH MATTERS, and you are invited to make a presentation.

Your talk, ten to fifteen minutes in length, can be on any topic in mathematics or statistics of interest to you (talks do not need to be on original research). If you're not sure about a topic, you may want to speak to one of us or to one of your math instructors. Thanks to contributions from faculty that are being matched by the national math honor society Pi Mu Epsilon, monetary awards will be given.

The event will be held in KT 216 at noon on **Wednesday, April 17**.

If you decide to give a talk, please us know soon (and definitely by April 8), either by e-mail to [beineke@pfw.edu](mailto:beineke@pfw.edu) or to one of the PME advisors (KT 288 or KT 262) with the information requested below (the title can be provisional and the abstract can be supplied later).

We encourage you to participate!

Professors L. W. Beineke and D. W. Townsend, Advisors  
Casey Cornett, Chapter President  
Indiana Zeta Chapter of Pi Mu Epsilon
