is pleased to present

N. Rao Chaganty

Statistics Program Director,
Old Dominion University

Graduate Education and Programs: An option for undergraduate students

Abstract

This talk is primarily geared toward undergraduate students contemplating the next steps, perhaps considering graduate studies. In it, we will discuss the need for a graduate education, how to get accepted into graduate programs, and how to ensure future success in graduate school. We will also discuss the layout of traditional graduate programs in statistics and some modern programs in newer fields such as data analytics and big data.

Noon – 1:00, Monday, Oct. 24, 2016. Location: **Kettler 216**
