

# THE DEPARTMENT OF MATHEMATICAL SCIENCES

Indiana University - Purdue University Fort Wayne

is pleased to present

Robin Wilson

Open University, England

## **Euler: 300 Years On**

### **Abstract**

Euler was the most prolific mathematician of all time — but what did he do? In this talk I survey his life in Basel, St. Petersburg, and Berlin, and outline some of the contributions he made to the many areas in which he worked — from the very pure to the very applied.

Noon – 1:00, Wednesday, Oct. 1, 2014.

Location: KT 216
