1. 

Write in terms of $\vec{v}$ and $\overrightarrow{w .}$
a. $\overrightarrow{L P}$
b. $\overrightarrow{H F}$
c. $\overrightarrow{P M}$
d. $\overrightarrow{P B}$
2. Each grid square is 1 unit along each side.

|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |  |  | $\overrightarrow{l \mid}$ |
|  |  |  | $\vec{r}$ |  |  | $\vec{u}$ |  |  | $\vec{p}$ |  | $\vec{q}$ |  |  |  |

a. Which vector is the same as $\vec{u}+\vec{v}$ ? (Select one)
A. $\vec{r}$
B. $\vec{p}$
C. $\vec{q}$
D. $\vec{s}$
b. Which vector is the same as $\vec{u}-\vec{v}$ ? (Select one) $\qquad$ B. $\vec{p}$
C. $\vec{q}$
D. $\vec{s}$
c. Which two vectors shown above are opposites?
d. Sketch and label the vector $\vec{w}=2 \vec{a}+\vec{b}$ on the grid.
e. Report the length of the vector $\vec{s}$ to three decimal places: $\|\vec{s}\|=$
f . What angle does the vector $\vec{s}$ make with the positive $x$-axis?
Report to the nearest 0.1 degree.
