

# Data Science and Machine Learning Seminar Series

Tuesday 29th September 2020 6:00pm KT216

## Prof. Nicholas P. Jewell

Chair of Biostatistics & Epidemiology  
London School of Hygiene & Tropical Medicine

Professor of the Graduate School  
School of Public Health  
University of California, Berkeley

### Statistics and Epidemics: COVID-19's lessons on myths and public health mobilization

I will discuss some of the facts and myths surrounding the COVID-19 pandemic in the US, focusing on insights that are provided via mathematical models and the use of statistical information. We will also discuss where we need to go from here in terms of data collection and interpretation.
