

Mitton Park Fault Image Credit: Dana Jensen, 2007

Three geological structures are shown in the image above, which was taken within Dinosaur National Monument (Kelly and Tikoff, 2007). The blue line marks an anticline, the yellow line marks a syncline, and the black line marks the fault plane of the Mitton Park Fault.

NOTE: This assignment requires ten photographs, image credit, and text with suitable reference.

I have provided only one photograph as an example.
