

How to Register for Pearson MyLab Math

1. Start in Brightspace:

Always enter your MyLab course directly from Brightspace, rather than going to Pearson's website. Log into Brightspace and open our course.

2. Open Pearson Content:

In the main menu, click on **Content**, then click on **My Math Lab**, and finally select **Access Pearson**. If prompted, click the **Open Pearson** or **Open MyLab & Mastering** button.

3. Link your accounts:

If this is your first time using Pearson in Brightspace, you will be prompted to link your accounts. Follow the on-screen instructions to create a new Pearson account or sign in to an existing one.

4. Verify your course section:

On the registration page, check the right side of the screen under "Your course" to confirm you see **Fall 2026 MA 16600-01**.

5. Select an access option:

You have three ways to access the course materials:

1. **Use an Access Code:** Select this if you already purchased a prepaid code from the bookstore or have one from a prior semester.

2. **Use a Credit Card or PayPal:** You can buy access directly.

Choose the **18-Week access** if you are NOT planning to take MA 26100 (Calc 3) on this campus next semester. Some students who plan to take Calc 3 on campus next semester, choose **24-month access** for a price break. If considering this, take note:

- a. Make sure you use your university email address for your Pearson account. Otherwise you may have trouble accessing it through Brightspace next term.
- b. Be aware that not all MA 26100 instructors use My Math Lab.

3. **Get temporary access:** If you are waiting on financial aid, look near the bottom of the page for the link to get temporary access without payment for 14 days from the time you request it.

Once registered, select **Go to my course**. Always enter My Math Lab through Brightspace.
