Daniel Yorgov's Student Evaluations of Credit Courses
Purdue University Fort Wayne (Formerly IPFW), Mathematical Sciences

Below is a summary of the anonymous end-of-term student evaluations since I teach at Purdue University Fort Wayne (formerly IPFW). I report the questions that rate me as a professor.

The standard evaluation form used by the Department of Mathematical Sciences asks students to rate the instructor and the course. Students rate their agreement with a sequence of 10 statements on a 5-point scale (5 = strongly agree, 4 = agree, 3 = undecided, 2 = disagree, 1= strongly disagree) and also provide overall rate of the instructor and the course on a 4-point scale (4 = excellent, 3 = good, 2 = fair, 1 = poor). I report all six items in the form that are *rating the instructor* here.

1.1. The instructor is well prepared.
1.2. The instructor displays an understanding of course topics.
1.3. The instructor's techniques of presentation are effective.
1.4. The instructor has the ability to clarify complex topics.
1.5. The instructor listens and attempts to understand questions before answering.
1.8. OVERALL RATING OF INSTRUCTOR (different scale, 4 = excellent, 3 = good, 2 = fair, 1 = poor) I also report percentage of "good" or "excellent" ratings for question 1.8.

I am also reporting percentage of "good" (3) or "excellent" (4) ratings on the last question, Q1.8. This metric is preferred by the department for the for the purpose of annual evaluations.

	Q1.1 (scale 1-5)	Q1.2 (scale 1-5)	Q1.3 (scale 1-5)	Q1.4 (scale 1-5)	Q1.5 (scale 1-5)	Q1.8 (**scale 1-4**)	Percentage *Good* or *Excellent*
